Keeping the Body in Repair

Nature intended that the body should do its own repairing—and it would do so were it not for the fact that most of us live other than a natural life.

Nature didn't intend that we should wear corsets, tight collars or live in badly ventilated and draughty houses, nor eat and drink some of the things that we do, nor ride in street cars when we should walk.

The consequence is that the body when it gets out of order must look for outside help to make the necessary repairs.

For weak stomachs and the indigestion or dyspepsia resulting, and the multitude of ailments following therefrom, no medicine can be more adaptable as a curative than DR. PIERCE'S GOLDEN MEDICAL DISCOVERY.

The famous Doctor's prescription has been recommended for over 40 years.

It has been a big success. Restores a healthy appetite. Cleanses the blood.

CHURCHES TO HOLD EASTER SERVICES

Special Music and Sermons on Resurrection to Feature Day's Celebrations.

Special to The Tribune.
OGDEN, March 22.—With very few exceptions every church in Ogden will observe Easter Sunday with elaborate services tomorrow. Because of the fact that the regular conference date corresponds with that of Easter Sunday this year, the North Weber stake has arranged for special services in the tabernacle. In all of the Evangelical churches the principal Easter service will be held in the morning.

This year the Easter music at St. Joseph's church will be of unusual merit. At the solemn high mass, to be celebrated at 10:30 o'clock, the choir will render the "Miserere," "Gloria," and "Credo." The soloists will be B. A. Critchlow, George Douglas and Miss Margaret McNulty. Mrs. Mayme Carter Kennedy will direct the musical numbers.

There will be three services during the day at the First Presbyterian church. The themes of the Rev. John Edward Carver to be the "Golden Rule," "The Power of the Resurrection," and "The Easter Message." The members of the El Monte commandery, Knights Templars, will attend the praise service at 4:15 p. m. There will be special musical programmes at all services.

The holy communion at 8 a. m. and Sunday school at 9:15 o'clock in the Church of the Good Shepherd, Episcopal, will be followed by the festival service at 11 o'clock. The soloists will be Miss Myrtle Thatcher and A. F. White. The Rev. G. F. Baswell will deliver his Easter message. Miss Rosalie Holberg and Miss Rosamond Laird will render solos at the morning and evening services.

"The Resurrection" is the subject of a sermon to be delivered by the Rev. Frank G. Brainerd in the First Congregational church at the principal service tomorrow morning at 11 o'clock. In the evening his subject will be "An Easter Message." Special musical programmes have been arranged for both services.

At the First Baptist church there will be four services during the day, beginning with a sunrise prayer meeting at 6:30 a. m. The Bible school will present the Easter-Livingstone programme at 10 o'clock, this to be followed by the regular service at 11:15 a. m. The evening service at 7:30 o'clock will be given over entirely to music, the numbers to be furnished by the students of Professor Cal.

Dispensing with the usual departmental work, the entire monthly meeting of all the priesthood and auxiliary associations of the Ogden stake will be devoted to Easter services. The programme will be given in the Weber academy auditorium, beginning at 2:30 p. m. Apostle David McKay will be the principal speaker and his subject will be "The Resurrection." Miss Pearl Jones of the stake presidency of the Y. L. M. I. will deliver a brief address on the origin of Easter.

TO BOOST CANNED GOODS.

Tinned Foods to Be Specially Displayed First Week in April.

Special to The Tribune.

OGDEN, March 22.—In accordance with the plan of the National Association of Canned Goods, plans are made in this city for an observance of "Canned Goods" week, March 31 to April 6. Through the co-operation of the association's entire membership, it is planned to have an observance of this week in every city and town throughout the United States.

The association does not attempt to specify what brands of canned goods are to be displayed and "boosted" by the retailers during the exhibition week. The general impression being that the products will be put to the front in every case.

During the special week, the grocers are urged to advocate the advantages of canned goods and to prepare special displays.

As Utah is so well represented in the national association, it is expected that the "Canned Goods" week in this state will bring out some excellent displays and unique advertising stunts.

PENROSE TO PREACH.

Mormon View of the Resurrection to Be Subject of Speaker.

Special to The Tribune.

OGDEN, March 22.—"The Resurrection," as it is viewed from a Mormon standpoint, will be the subject of an address by President Penrose at the North Weber stake conference in the tabernacle tomorrow. President Rulon S. Wells of the first council of seventy will also be present.

This is the first time in the history of the stake that the regular conference and stake have fallen on the same Sunday. Because of this there will be special Easter music by the tabernacle choir. The authorities of the stake have issued an invitation to the general public to attend the services, both morning and afternoon.

In the evening service will be the principal speaker at services to be held in the Third ward chapel.

FIRE AUTO DISABLED.

Big Machine Breaks Crank Shaft in Long Run.

Special to The Tribune.

OGDEN, March 22.—Owing to the breaking of a crank shaft as the car was responding to an early morning alarm, the big fire auto at the Central station will be out of commission for a few days. The fire was in a house belonging to Mrs. Louis Saville at Thirty-ninth street and Colorado. The cause of the fire is outside of the city limits.

Fire Chief A. B. Canfield believes that this fact "proved" his new machine.

The broken shaft punched a hole in the box and it will be necessary to await the arrival of a new casting from the factory at the city.

Repairs on the disabled car are being made by the firemen.

WARN PHYSICIANS.

Fines Threatened if Contagious Diseases Are Not Reported Promptly.

Special to The Tribune.

OGDEN, March 22.—Acting on the complaints made to a representative of the state board of health by City Sanitary Inspector George Shorten, the board has issued printed instructions to all Ogden physicians advising their attention to the fact that all contagious diseases must be reported to the city authorities. The cards were dated by Inspector Shorten and distributed to the local doctors today.

The action of the board was due to a report submitted by State Sanitary Inspector J. C. Emery of Salt Lake, who has been investigating the conditions here during the past few days. He states that unless greater care is taken by physicians in making the reports as called for under the law, a few fines will be assessed. The state board is especially interested because accurate reports are required in order to compile vital statistics.

Barrows, supervisor of extension work in the Brigham City high school, will deliver a lecture before the parents' class of the Sixth ward at 10:30 o'clock tomorrow morning. His subject will be "The Industrial Training of Children and the Credit System." One of the greatest advantages of the system is the awakening of a "back to the home" interest.

The Crown of Womanhood

"Uncared for hair cannot be beautiful. There is no part of the human makeup so revealing as the hair. It cries out: Look at me, care for me, or I will disgrace you! Treat me with consideration and I will be a glory to you."

With the above words, Lillian Russell, an unquestioned authority on feminine attractiveness, places no uncertain value on nice hair as a beauty asset. Unkept, uncared for hair not only cannot be attractive but is actually a disgrace.

Why have I kept, untidy hair? By devoting a few moments regularly to brushing and intelligent application of Newbro's Herpicide, the hair may be made to yield wonderful returns in increased personal charm.

Dandruff, which is due to a germ or microbe, the direct cause of more hair trouble than anything else. The hair becomes thin, harsh, uneven and falls out in quantities. It looks dead and greasy; there is no luster. The scalp itches.

Herpicide will destroy this dandruff germ that is causing all the trouble, clean the scalp, give the hair life, snap and luxuriance. The hair stops coming out, the itching ceases almost at once and withal there is a most gratifying sense of cleanliness.
